INTRODUCTION

WHY TESLA X?

The Iron man of tech world brings to you GROK AI .
This will make the best algorithm work for you to
maximise your yield from blockchain.

We aims to bring like minded people under one umbrella .
TESLA X WORLD

TESLAX

MARKET OVERVIEW

GLOBAL CRYPTO MARKET TRENDS

2025 will see a shift toward hybrid custody models. Traditional finance institutions, crypto-native firms and self-custody solutions are increasingly coexisting. This provides flexibility for different types of investors but also might raise concerns about security risks and governance. We aims to reduce that risk

TOP CRYPTOS BY MARKET CAP. (DATA AS ON 2025 JAN)

COIN NAME	MARKET CAPITALISATION
BINANCE COIN (BNB)	$95.06 BN
SOLANA (SOL).	$96.08 BN
RIPPLE (XRP).	$148.26 BN
DOGECOIN (DOGE).	$38.78 B N . NEXT...TESLAX?

The successful creation of DOGE has inspired us to create TESLAX.ENERGY.

SMART CONTRACT ?

Smart contracts are 100% decentralized and cannot be altered or shut down by anyone. They are readily available 24/7.

DECENTRALIZATION

A decentralized smart contract is a self-executing contract that runs on a blockchain, ensuring that the contract's terms are executed transparently and without central authority intervention.

INSTANT WITHDRAWAL

WHY BSC BEP 20

The Binance Smart Chain (BSC) is a blockchain platform designed to facilitate decentralized applications (dApps), enable smart contracts, and provide high-speed transactions at low costs. Among the token standards available on BSC, BEP20 token development has gained significant popularity. This blog explores why BEP20 stands out from other Binance Smart Chain token standards, explaining its features, benefits, and use cases in a simplified manner.

- Interoperability with Binance Smart Chain
- Cross-Chain Functionality
- Familiarity for Developers
- Low Transaction Fees
- High Speed
- Versatility
- Support for Staking & Farming

MONETIZATION STRATEGIES OF TESLAX
0.2 % to 2 % Daily

1. **FOREX TRADING**

2. **TES CRYPTOCURRENCY AND WEB3 INFRASTRUCTURE DEVELOPMENT**

3. **TES PAYMENT PLATFORM**

4. **BLOCKCHAIN / WEB 3 LEARNING ACADEMY**

TESLAX

MONETIZATION STRATEGIES OF TESLAX

1 FOREX TRADING

Forex (foreign exchange) trading involves buying and selling currency pairs to profit from changes in exchange rates. It's one of the largest and most liquid markets in the world.

Combining Forex trading with AI (Artificial Intelligence) is a powerful approach that many traders and institutions are leveraging to gain an edge in the market.

Our AI Trading with the help of GROK is performing very well. Our algorithm in particular, is now finely tuned to reduce the potential loses that can occur in forex trading .
Our dedicated AI platform works seamlessly from Monday to Friday .

AI doesn't eliminate losses (no system can), but it minimizes them through:

- Smarter decision-making
- Faster reactions to market changes
- Emotionless, data-driven trading
- Adaptive learning and risk management
- Real-Time Market Analysis
- Predictive Modeling Using Machine Learning
- Emotion-Free Trading
- Risk Management Algorithms
- Backtesting & Optimization

TESLAX

MONETIZATION STRATEGIES OF TESLAX

2 TES CRYPTOCURRENCY AND WEB3 INFRASTRUCTURE DEVELOPMENT

With the basic idea of bringing in the crypto community, we have designed a good road map for tez coin development.

PHASE 1

Cryptocurrency Development

Purpose
Utility – Gaming and payment purposes

Type
BSC BEP 20 CHAIN

Deploying smart contract
Auditing smart contract

By using third-party firms like Certik, Hacken, or Solidity Finance in order to Prevent hacks, rug pulls, or vulnerabilities

PHASE 2

Build Infrastructure Around the Token

Website with whitepaper, roadmap, and tokenomics
Token explorer page (using Etherscan or BscScan)
Wallet integration (MetaMask, Trust Wallet, etc.)
Community setup: Telegram, Discord, Twitter, Medium

PHASE 3

Tokenomics & Whitepaper

Define supply (total, circulating, burned)

Allocation:
Team, public, staking, liquidity, reserves

Utility:
Staking, rewards, access, governance

TESLAX

PHASE 4

Listing Tes Token

DEX Listing (Decentralized Exchange)
PancakeSwap (BSC),
Provide liquidity via LP pools
Announcements on socials and CoinMarketCap

CEX Listing (Centralized Exchange)
Apply to Binance, KuCoin, Gate.io, MEXC, CoinEx, etc.

Get Listed on Tracking Platforms
CoinMarketCap,CoinGecko
Submit detailed token info, logo, social links, and contract address

Add-Ons
Staking or farming mechanisms and airdrop campaigns

Games
Using games—especially simple, addictive ones like tapping games—as a way to bring users into the crypto ecosystem is a smart strategy. It merges entertainment with token utility and user acquisition. Here's how that works and what we build .

Why Games Are Effective for Crypto Adoption

Fun and addictive:
Easy entry, especially with tapping/clicker games
Play-to-Earn (P2E) model draws users who want to earn crypto while playing

Gamified onboarding:
Teaches users how wallets, tokens, and NFTs work without complexity

Community building:
Games often grow virally, especially with referral systems or rewards

Popular Game Types in Crypto

Tapping/Clicker Games
Example: Tap to mine tokens, collect coins, or level up

Idle/Earn Games
Players earn crypto while offline based on their upgrades or staked characters
Great for long-term engagement and retention

NFT-Based Games
Characters, items, skins are NFTs with real-world value
can be traded or used to earn yield in DeFi

Mini-Games Inside a Metaverse
Games inside a virtual world or platform (like Decentraland or The Sandbox)

Users play to earn tokens, land, or NFTs

Crypto Integration Ideas

Reward System
Reward users with your token (like $TAP) per action or level

Staking Boosts
Let users stake tokens to increase in-game earning rate

NFT Characters
Unique characters with traits, upgradable or tradable

Token Burn Mechanics
Use in-game actions to burn tokens and increase scarcity

Ad Revenue Sharing
Watch ads to earn crypto, with ad revenue partially shared

MONETIZATION STRATEGIES OF TESLAX

3 TES PAYMENT PLATFORM

Tes crypto payment platform lets businesses or individuals accept cryptocurrency as payment for goods or services. It works similarly to a traditional payment processor (like PayPal or Stripe), but uses blockchain technology instead of banks.

Multi-Currency Support
Accept BTC, ETH, USDT, SOL, BNB, etc.

Low Fees
Lower than traditional credit card fees

Global Access
Anyone with internet and a crypto wallet can pay

Security
No chargebacks or fraud like credit cards

Fast Settlement
Payments settle faster than bank transfers

Volatility Protection
Instant conversion to stablecoins or fiat

How a Crypto Payment Platform Works (Step-by-Step)

Customer Chooses Crypto Payment

Platform Generates Payment Info

Customer Sends Crypto

Platform Confirms Payment

Additional feature - Auto-Conversion to Fiat

MONETIZATION STRATEGIES OF TESLAX

4 | BLOCKCHAIN / WEB 3 LEARNING ACADEMY

The scope of a Crypto and Blockchain Learning Academy is broad and rapidly evolving, making it a valuable initiative with high future potential.

From beginner to advance level courses we provide certified blockchain courses on

- ▶ Certified Blockchain Developer
- ▶ Certified Smart Contract Auditor
- ▶ Certified Crypto Trader
- ▶ Blockchain Project Manager
- ▶ Web3 Architect

Revenue streams comes from

Paid courses (online & offline)
Corporate training
Certifications & exams
Web3 bootcamps & hackathons
Partnerships with blockchain platforms (e.g., Ethereum, Polygon, BSC)
Sponsored webinars and events

TESLAX

HOW TO BE A PARTNER OF TESLAX

- DOWNLOAD ANY DEX
- CREATE A NEW BSC BEP 20 WALLET
- ADD BNB AND USDT
- LOAD YOUR WALLET WITH BNB (MIN 0.01BNB SUGGESTED)
- ADD USDT OF ENOUGH QUANTITY OF YOUR WISH
- GET THE LINK FROM YOUR SPONSOR
- COPY AND PASTE IT INSIDE DEX BROWSER
- BUY YOUR SUITABLE ENERGY BAR
- SHARE YOUR SPONSOR LINK

SIT RELAX ... YOU ARE ALL SET

PACKAGE

100$	**250$**
500$	**1000$**
2000$	**5000$**
10,000$	

LEVEL INCOME

L1	25%	D1
L2	10%	D2
L3	5%	D3
L4-L5	3%	D5
L6-L10	1%	D6
L11-L15	0.5%	D8
L16-L30	0.3%	D10
L31-L40	1.2%	D12

T&C - inorder to achieve level income from whole 40 levels, Ids should be activated at minimum 100$, along with minimum average business as designed in smart contract

RANKS

WWW.TESLAX.ENERGY

1k $	RUBY	1000
5k $	SILVER	5000
10k $	PEARL	10000
50k $	PLATINUM	50000
100k $	GOLD	100000

200k $	DIAMOND	200000
1m $	DON PIN	1000000
5m $	COMMANDER PIN	5000000
10m $	KING / QUEEN PIN	10000000
1b $	EMPEROR PIN	1000000000

NB – ALL OUR OFFICIAL PROGRAMS WILL BE BASED ON RANKS. PROMOTIONAL OFFERS WILL BE ANNOUNCED FROM TIME TO TIME EXCLUSIVELY BASED ON THESE RANKS.

GOLD RANK INCOME

YOU

ORGANIZATION 1	ORGANIZATION 2
1,00,000$	1,00,000$

IF YOU MATCH 2 LEGS FROM DIFFERENT LEGS YOU WILL GET SALARY INCOME 500$ TOTAL BUSINESS VOLUME EVERY MONTH

DIAMOND RANK INCOME

YOU

ORGANIZATION 1	ORGANIZATION 2
2,00,000$	2,00,000$

IF YOU MATCH 2 LEGS FROM DIFFERENT LEGS YOU WILL GET SALARY INCOME 1000$ TOTAL BUSINESS VOLUME EVERY MONTH

T&C – Although our system is fundamentally based on a level structure, it operates through two teams. Unlike other level income plans where you may not receive any support from your uplines, our plan not only provides all the benefits of a level income structure but also includes dedicated support from uplines, helping you achieve a salary much faster.
